Math

Shannon has 1024 fewer paper clips than Maisie. If Shannon has 2143 paper clips, what is the total number of paper clips that Shannon and Maisie both have?

1. Use “Thinking Blocks” to model the problem. Label the rectangles.
2. Write the correct numbers in the spaces. Put a question mark (?) for the missing information.
3. Show the work you did to find the missing number and add it to the spaces with the question mark.
4. Write a sentence to answer the question.
